Hi Paul,

Sorry I missed you yesterday, and thanks for speaking with me today. Attached you will find what we would like to discuss regarding the Community Advisory Group, and potentially some other facets of EPA community involvement program. The meeting agenda was what we originally were going to present over in February. Please let me know regarding a potential meeting tomorrow. If you need further drill-down, I can provide the notes for the discussion.

Thanks,

-Ed-

Hi Ed,

Can you give me a call as soon as possible? Atkins is ready to talk about the CAG process / selection.

We would like to meet with him Wednesday to discuss.

Thanks,

Paul White II, REM, CFM

Hi Joseph and Paul,

Thanks for your help. For the CAG, we just need to set up a meeting like we did at Councilman Felder's office. Then I can give a brief on the CAG process/selection, and we can start building consensus etc. I can provide more information, but EPA would like a suggested roster from the councilpersons and local government.

Thanks,

-Ed-

Afternoon sir,

Thank you for the update, I am glad you sent an email because I just submitted the EPA site access agreement the attorney's have been working on for City management/attorney signature and process.

I am unsure how long it should take to get through the steps, but I wanted to relay we are working on getting that access agreement approved.

We'll of course work with EPA on getting the CAG process started, please do let us know what else you need with that effort.

Paul and Joseph,

I wanted to let you know that we are posting the response to the questions from the 3-7 meeting, the Sampling and Analysis Plan (SAP), and the Conceptual Site Model Tech Memo (CSMTM) on the EPA Lane Plating Web Site. <https://cumulis.epa.gov/supercpad/SiteProfiles/index.cfm?fuseaction=second.scs&id=0605240&doc=Y&colid=36687®ion=06&type=SC>

I also wanted to let you know that we are trying to get things ready so we can do field work starting the week of May 13. That is not a firm date as we still need to confirm the lab can accept samples at that time, and that subcontractors needed to install monitoring wells will be available.

I also wanted to let you know we are considering upgrading the fencing around the site. We will also put up a sign on the front gate.

Ed is working with EPA HQ on the community involvement plan. I think he would like to set up another meeting with the city to work on setting up a CAG.

I'll try to keep you informed about work we are doing at the site. Let me know if you have any questions.
